

# Product Documentation

## Homepage

The homepage provides an overview of the product and acts as the main entry point for users.

## File Upload Page

This page allows users to upload files, such as CSVs, for data ingestion into the system.

# Product Documentation

## CSV Event Uploader

Drag & Drop CSV file here or click to select

Upload CSV

## Dashboard Page

The dashboard displays the data from the table events. and with sort by Name , Date and Research value.
